Schedule 4 - Little Champs Investment Approach (Direct)

Investment Strategy	Equity Strategy						
Investment Objective	To preserve the purchasing power of the client's capital whilst providing sustainable returns over long periods of time.						
Description of Securities	Under Little Champs, client monies would primarily be invested in equity shares and equity linked instruments issued by companies with proven corporate governance and capital allocation track record and which dominate specific niches of the Indian economy through sustainable competitive advantages built around brands, business processes and strategic assets. Some part of client monies might be invested in units of money market and liquid funds and some part might be retained as bank balance in bank account.						
Basis of Selection of type of security	The Little Champs investment approach is based on generating returns by investing in participating instruments of companies with proven corporate governance and capital allocation track record and which dominate specific niches of the Indian economy through sustainable competitive advantages built around brands, business processes and strategic assets. Hence, under this investment approach, investments are primarily made in equity shares and equity linked instruments issued by companies listed in India and which generally have market capitalisation less than Rs. 7,500 crores on date of first investment. To keep some part of client monies in liquid form, such monies are either invested in units of money market funds or liquid fund or they are retained in the bank account in form of bank balance.						
Allocation of portfolio across types of securities	<table border="1"> <thead> <tr> <th>Type of security</th><th>Allocation in portfolio</th></tr> </thead> <tbody> <tr> <td>Equity and equity linked instruments</td><td>=>70%</td></tr> <tr> <td>Money market funds / Liquid funds / Bank balance</td><td>up to 30%</td></tr> </tbody> </table>	Type of security	Allocation in portfolio	Equity and equity linked instruments	=>70%	Money market funds / Liquid funds / Bank balance	up to 30%
Type of security	Allocation in portfolio						
Equity and equity linked instruments	=>70%						
Money market funds / Liquid funds / Bank balance	up to 30%						
Appropriate Benchmark to compare performance	S & P BSE 500 TRI						
Basis for choice of benchmark	Most of the portfolio companies under LCP Investment Approach have market capitalization of less than Rs. 7,500 crores on date of first investment and thus fall in small-cap category based on market capitalization. SEBI has prescribed the Portfolio Managers to choose benchmarks from Nifty 50 TRI, S&P BSE 500 TRI and MSEI SX 40 TRI. Out of the options available under regulations, S&P BSE 500 TRI was considered to be most appropriate.						
Minimum investment	The minimum value of Funds/investments which will be accepted towards initial corpus under Little Champs Investment Approach would be decided by the Portfolio Manager from time to time and the minimum sum will not be less than Rs. 50,00,000 (Rupees fifty lakhs) or any other amount as may be stipulated by the Regulations. The uninvested amounts forming part of the Client's Assets may be at the discretion of the Portfolio Manager held in cash or deployed in liquid fund schemes, exchange traded index funds, debt-oriented schemes of mutual funds, gilt schemes, bank deposits and other short term avenues for investment. The Portfolio Manager may call for the amount in tranches which shall be detailed in a separate Schedule. The Portfolio Manager will, however, be at liberty to call for the amounts payable under the tranches ahead of the dates for payment mentioned in the said Schedule by giving a prior written notice of 10 days to the Client. The Client has the option to pay such amounts ahead of the dates to the Portfolio Manager if he/it deems fit.						
Indicative tenure or investment horizon	3 years to 10 years						
Minimum tenure	3 years						
Lock-in period	DPMS Investments managed under Little Champs Investment Approach shall be subject to lock in period of three years, which shall apply from the date of the placement (i.e. date on which the investments/funds are accepted). If the client wishes to withdraw investments before the expiry of lock-in period, portfolio manager shall be entitled to charge exit load specified in clause 11 of this schedule. The Client will be at liberty to withdraw full/partial Funds/Securities at any time after the lock-in-period and/or minimum period. Non-withdrawal of Funds/Securities as mentioned above will be deemed to be continuance of the agreement for managing the Funds/securities portfolio.						
Exit loads	Exit load shall be levied in following manner – (i) 3% of AUM withdrawn if investments are withdrawn within 1 year from date of investment, (ii) i) 2% of AUM withdrawn if investments are withdrawn within 2 years from date of investment, and (iii) i) 1% of AUM withdrawn if investments are withdrawn within 3 years from date of investment						
Redemptions / Partial withdrawals	Partial withdrawal shall be allowed only to such extent that portfolio value after recovery of fees, charges, exit load (if any) and payment of withdrawal amount is not less than the minimum investment specified in Clause 7 of this schedule.						
Use of derivatives	The Portfolio Manager might transact in derivatives in case it deems it necessary to protect the value of client's portfolios in periods of market instability. If the client does not want the Portfolio Manager to use derivatives at all in his/her portfolio, then, he/she can mention Derivatives as negative security in Negative security list and the Portfolio Manager would be barred from using derivatives in the client's portfolio.						
Risks associated with the investment approach	Risks associated with the investment approach and equity investments in general are provided in our Disclosure document which is available at https://marcellus.in/disclosure-documents/

Client Suitability, Investment Objective and Risk Profile Form

In order for us to offer our products to you, we need to have a reasonable basis. The information requested in this Client Risk Profile Questionnaire is one of the tools we use to establish a basis by which we offer a particular strategy/product to you. It is therefore important for you to complete this document as accurately and fully as possible. Failure to do so could result in you subscribing to a strategy/product that is not appropriate to your individual needs, circumstances and objectives. Please note that this questionnaire is not suited for holistic financial planning but is only used to offer you our strategy/product that we believe suits a particular investor risk profile.

Your Investment Risk Profile Levels

Investment risk refers to the level of volatility or fluctuation that a person is prepared to accept in investment returns - including the potential risk of loss of some capital in the short term, and the potential risk that retirement goals may not be met in the longer term. Volatility refers to the unpredictable upward and downward movements in investment values over a period of time.

Conservative	Score grid ≤ 10
---------------------	------------------------

You are an investor who is prepared to accept lower returns with lower levels of risk in order to preserve your capital. The negative effects of taxation and inflation will not be concern to you, provided your initial investment is protected.

Moderate	Score grid 11 - 25
-----------------	---------------------------

You are an investor who would like to invest in both income and growth assets. You will be comfortable with calculated risks to achieve good returns; however, you require an investment strategy that adequately deals with the effects of inflation and tax.

Balanced	Score grid 26 - 39
-----------------	---------------------------

You are an investor who is comfortable with a high volatility and high level of risk in order to achieve higher returns over long term. Your objective is to accumulate assets over long term by primarily investing in growth assets.

Aggressive	Score grid ≥ 40
-------------------	------------------------

You are an investor who is comfortable with a higher level of risk in order to achieve potentially higher returns. Capital security is secondary to potential wealth accumulation.

Note:- This Risk assessment framework is an attempt to categorise investor risk profile basis their downside risk appetite over a time period equal to or longer than one year.
